# INTRODUCTION

## Helping Our Candidates Unlock the Second Prison

Every year, about 8,000 candidates are released. Many of them find themselves stepping into a second prison where they face discrimination, mistrust and suspicion.

At Yellow Ribbon Singapore (YRSG), we believe that sustained employment and progress made at work will help these candidates reintegrate into society. With your support, we hope to provide ample career opportunities for our candidates. Hiring them is the most symbolic act of acceptance and offering of second chances. When you offer second chances, it creates a ripple effect that inspires others to act collectively.

With a stable income and supportive work environment, our candidates can become contributing members in the society.

We are, after all, each other's second chances.
